SOLUTIONS FOR YOUR PRACTICE

features niacin, which has been clinically proven to reduce hyperpigmentation, help even out skin tone and texture, smooth fine lines and wrinkles, and improve skin firmness. Evening primrose and olive oil deliver moisture, leaving the skin feeling soft and supple. Sodium hyaluronate, a key ingredient in the formulation, absorbs up to 200 times its own weight in water and functions as a humectant, delivering moisture to the upper layers of the skin. NIA 24 also contains Pro-Niacin™, a patented molecule that travels deep into the skin to nourish and protect it from the dangers of the sun and the environment. Pro-Niacin also visibly improves skin tone and texture, and reduces

Silico-Lipid Serum by Medicalia International is a formula that contains silicones, phospholipids (vitamins A, E, and F) and boi oil. The serum may be incorporated into a postoperative home-care regimen to protect and soothe the skin. The serum's nongreasy texture leaves a noncomedogenic film that speeds up the healing process.

For more information, contact Medicalia International, 300 Fentress Blvd, Daytona Beach, FL 32114; (866) 314-1975; www.medicalia.com.

Antioxidant Serum

Polyphenol Plus by **Robert A. Guida, MD**, is an antioxidant serum composed of green tea with 90% polyphenol isolates. The serum is fortified with caffeine, which enhances antioxidant benefits and protects the skin from free-radical damage. The formula also contains the humectant hyaluronic acid, which delivers enhanced miniaturization to improve texture, tone, and the overall appearance of skin. The fast-absorbing, water-soluble serum detoxifies the skin, resulting in decreased water retention in the tissues.
